Thank you for choosing to dine
at the Harbour Lights.

We are only nine year Fish and Chip veterans, but
what fun we have had along the way.

Great customers that appreciate the most
traditional of British dishes and a great team
that appreciate the lighter side of life. We are
not fine dining, try Padstow for that one,
but we do have a deep desire to give you
the best fish and chips we can, served by human
beings not robots whilst you sit back and enjoy
the ever changing views of Falmouth Harbour.

Our four children, that you will see on the wall, are
already beginning to get involved. If you
hear a clatter from the kitchen, it's probably young
Ronan helping out with the washing up.

We really hope you enjoy your meal.
Please let any member of staff know if anything,
no matter how small, is not to your liking.

Best fishes

Pete & Sue Fraser

P.S. We have recently opened a second Harbour Lights
on Lemon Quay in Truro. We would love to welcome
you there if you get peckish whilst shopping.

In February 2006, we made a commitment to only sell fish from sustainable stocks. It is important to us that you should be able to eat our fish guilt free.

Due to the above, we have previously had to remove the popular Skate off the menu, when no safe stocks could be found. Recently we took the decision to stop selling Cod Roe. At a time when world fish stocks are threatened it makes no sense to us for fishermen to specifically target spawning fish.

More information on our fish sourcing policy can be found on our website:
